THE CONFERENCE THIS EVENING OF THE DEMOCRATIC LEADERS OFFICED TO THE WIGWAMITES AND ITS PROSTE TS-- NA-CHRM RELLY NOT APPLAID.

The anti-Tammany meeting to be held this svening will be well attended the managers of the movement say, and the f assert that, all stories to the contrary D' swithstanding, every Assembly district will by represented by demogats of standing and she have not in any muner at any time b on connected either with the sld ring or the opposition movements of former rears, whose main object it was to

MAKE A "DEAL" with the republicans for a good consideration. The decision come to by the leaders, so-termed, to have a call issued to the democratic voters will, it s believed, not find favor with some of the more prominent gentiemen who are exnot that the call must be signed sysomebody, and that Tammany, under the cirunistances, will be certain to cry out that the sew party after all is to be under the control of a nose corporation-a ring that will endeavor to suil the wool over the eyes of the laboring classes or their own benefit. If the meeting, on the other and, some of the oppositionists think, simply contents itself with passing a series of resolutions penouncing Tammany and leaving the method to district organizers by which the democratic voters who may be opposed to the regular party

ian be formed into a good working organization

the district organizars by which the democratic solens who may be opposed to the regular party can be formed into a good working organization be each district, the results will be found to be nore satisfactory in the long rin.

John Kelly, in common with all the other rational leaders, ridicules the idea of there being any strength in the new party. In conversation in the new subject he said—"The movement has not he first element of strength in it, and despite all he pretensions made by the individuals who are salking so much about how it originated, and for what purposes it has been started they are the lame class of men whom Tammany has defeated before, even though they were in league with the republicans, and did their best by their combinations to prevent the election of democratic candilates. The democratic voters understand the numiton thoroughly and will not allow themselves to be deceived by the devices of those who, nather than see Tammany elect good democrate to other, would sacridee the interest of the whole party for the benefit of the republicans. The combination made here estimated the interest of the whole party for the benefit of the republicans. The combination made here estimated from the present attempt to get up an opposition is but abouter edition of the old story."

In slinding to the lact that—thanks to the efforts of refermed Tammany—the city and State had got rid of many of the abuse by which they had been bardened, owing to the control exercised over both for years by republican legislatures, and complimenting Governor Tilden for the boid stand he spoke as foliows of the trouble over the labor question.—"The reduction was prought about by the heads of departments after a thorough discussion, he spoke as foliows of the trouble over the labor question."

Private employers generally pay their employes by the hour, and thus it is left with the workingman wheeler he will make more by warking ten hours work. Or \$1.50 for eight hours. The laborers in the employ of separtments occided to pay t

Then you believe that the laborers should get

"Then yos believe that the laborers should get 22 a day for eight hours work?"

"I think they should. I do not by any means think that \$2 a day is excessive. As I have said on a previous occasion the city government should show, without extravagance, a proper example to those private individuals who employ laborers. I thought we could hardly justify, on principles of humanity, the excessive labor excessive labor excessive labor expected by private employers from their laborers for the amount given them for their day's labor and make it a principle of comparison for the action taken by public officials in doing the same thing, when the whole people look to the government for example and protection."

It is apparent now, judging from the contempt with which Mr. Kelly and the Tammany men generally look upon the "new party," that Tammany, as an organization, will not take any official notice ine "concern," as one of them calls it. "If will be," said one of them last evening, "quite time enought to trample it out as with iron boots' if the taing should by that time be big enoughto be seen without the aid of a miscroscope."

A certain member of the Board took the responsibility of ordering a quantity of stationery, exceeding the sum of \$500, contrary to law. The bills were then made out under that sum in such number as to cover the total amount, so as to disarm suspiction. For a similar offence the former Pite Commissioners were indicted.

PROBABLE HOMICIDE IN JERSEY

A NIGHT'S CAROUSAL WITH A ELOODT TERMINA-TION.

An affray occurred between five and six o'clock yesterday morning, at the corner of Hud-on and York streets, Jersey City, which is likely to result fatally. A party of young mea belonging to the First ward had been on a spree during the night, I'wo of them, named Edward O'Neul and Thomas Fennery, were standing at the corner Fennery, were standing at the corner mentioned, and were acting in a bobsterous manner. O'Neill was challenging Fennery to fight and wanted to bet that he would 'smeash" him in the face. An engineer named John Kane, who was acquainted with both men, and who, like them, had been out all night came up and interposed. O'Neill, kowever, would inset on fighting, and kane said he would insist they should not fight. He rushed between the hen, and o'Neill drawing a knife plunged it into the left side of his back. Kane did not know he was stabbed in he walked about three yards, when he became weak and fell on the sidewalk. Officers sterling and Eaton rushed up and arrested o'Neill, who reades at No. 123 Hudson street. He is about this your years of age. Kane, who is ten years younger out muscular and well developed, was taken to be city Hespital, where he lies in a critical condition. He is not certain hat the knife penetrated the lung. The wound took at upward course. Last Apri, Kane, while employed as engineer in the loundry at the corner of Hudson and sussex streets, fell against the fly-wheel of the engine, which was making eighty revolutions a minute, and had his skipl fractured.
